Bevilacqua Research Corporation Task Orders to support USAFRICOM

(Huntsville, Alabama) September 17, 2009 -- Bevilacqua Research Corporation today announced it has been awarded two task orders by the Department of Defense (DoD) to support United States Africa Command (USAFRICOM) in the area of testing and evaluation of joint Command and Control, Communication, Computers, Intelligence, Surveillance and Reconnaissance (C4ISR) activities. The task orders have performance periods of one year with a combined value just over \$22.3M. The task orders were competitively awarded under DoD's Joint Test and Evaluation Engineering Services multiple award task order contracts, awarded and administered by the U. S. Army Engineer Research and Development Center's Contracting Office.

The task execution is supported primarily by Bevilacqua Research Corporation's subcontractor, R4 Incorporated. R4 is a minority-owned, service-disabled, veteran-owned small business (SDVOSB), maintaining headquarters office in Eatontown, NJ with offices in multiple locations including Huntsville, AL.
